Atlanta, GA 30312 | tmaxfinch6@gmail.com | 828-507-0794 | www.linkedin.com/in/max-finch-57001934a

EDUCATION

University of Georgia Athens, GA *Bachelor of Science, Computer Science*

Spring 2025 - present

University of Colorado Denver, Denver, CO *Bachelor of Science, Computer Science*

2021 - 2024

RELEVANT COURSEWORK

UGA: Java Software Development 1302, Discrete Math, Systems programming, Theory of Computing

UC Denver: Python, Object Oriented Programming(C++), Android app Development, Logic Design, Data Structures, Algorithms, Discrete Structures, Systems Administration, Calc I/II, Intro Web Dev

TECHNICAL SKILLS

Programming Languages: C++, Java, Python, Assembly, Swift, Javascript

Operating Systems: Windows, Unix, Mac OS

Software: GitHub, Kali Linux, Emacs, Visual Studio, CentOS, Unity, Blender, Node.js, Matlab

INVOLVEMENT EXPERIENCE

CodeHub Club | UGA 2025 - present

- Participating in coding workshops and collaborative projects to develop software engineering skills.
- Engage with peer programmers and industry professionals through networking events and technical talks hosted by CodeHub.

UGA Hacks Club | UGA 2025 - present

- Involved in hackathons and coding challenges, working in teams to develop innovative software solutions.
- Collaborate with students and industry mentors to expand knowledge of real-world problem-solving techniques.

PROJECT EXPERIENCE

Book Tracker App UC Denver *Android App Programming*

Spring 2024

- Application programmed using Java in a group project made for Android phones.
- Developed the front-end using Android SDK and XML, ensuring an intuitive and visually appealing UI.
- Implemented custom book lists with persistent storage using Android SharedPreferences.

Joe Hawk Nation *Personal project* in-progress

- Developed a mobile app using React Native and Firebase to post, edit, and manage sports betting picks.
- Built user authentication, post creation/editing/deletion, and admin-only features like premium tagging and moderation.
- Integrated real-time Firestore updates, custom UI styling, and date-stamped feeds with dynamic sorting.

Clocked in UGA *Hackathon Webapp*

Spring 2026

- Developed a SwiftUI study app that tracks user focus using a Python Back end with Open CV and MediaPipe face detection.
- Integrated Flask API with iOS front end, debugging render deployment and port connection issues in Xcode.
- Implemented camera manager logic, real time focus detection updates and UI alerts based on users focus.

WORK EXPERIENCE during school

Endive Catering / Atlanta, GA

2023 - present

Provide setup and food service at private catered events.

PMC Valet Parking / Denver, CO

2023/2024

Valet parking in downtown Denver for Hilton and Homewood Suites Hotel during school year.

Dual citizen US / EU by virtue of Greek heritage. Graduated from High School in Athens, Greece
